Café to You stimulus help!

FREE COFFEE

April ONLY –Buy 3 cases of any Café to You coffee and we will give you for FREE a case of our delicious Irish Cream

Spring has finally arrived which can mean only one thing: summer is right behind. Don't forget iced coffee can be a refreshing afternoon treat. If it's really hot outside and you want to cool down but still get your caffeine and coffee flavor, iced coffee is the way to go.

Quick Iced Coffee

- Step 1- Brew a pot of fresh Café to You coffee
- Step 2- Add sugar to the hot coffee if you would like to sweeten the whole pot of coffee; it will dissolve more easily in hot coffee than in iced coffee.
- Step 3- Fill tall, plastic (not glass!) glasses with ice cubes and pour the hot coffee over them.

Ice Machine

Café to You has the perfect solution a countertop ice machine. The icemaker can be used as a plumbed in or pour over system and does not require a drain. This easy to use machine produces a tray of ice every seven to eight minutes and approximately 33 pounds of ice per day with an outer body color of metallic charcoal gray.

Coffee Humor

"I want you to drink a cup of hot water every morning," prescribed the doctor. *"You gotta be kidding, doc," I've been doing that for years, but my wife calls it coffee."*

I met someone in the elevator who was drinking coffee and complaining about how coffee made him nervous. I said why don't you quit drinking coffee. *He said, "because if I didn't have the shakes I wouldn't get any exercise at all."*
