## Coffee Corner

### Go "Green" and Save Money!!!

Ice Machine & POU water coolers can provide the perfect solution to expensive and environmentally harmful bottled water. We know we can reduce costs. Example: for a 100 person office, a single ice POU cooler and Ice Machine can eliminate hundreds of 5 gallons water bottles and save \$1000.00's yearly.

Most people in this country like ice so much there is a name for it: "Chewable ICE". Studies reveal that over 50% of our population enjoys chewing ice. That is exactly what you will get with our Countertop Ice Machine.

**A Café to You Icemaker** can be used as a plumbed in or pour over system and does not require a drain. This easy to use machine produces a tray of ice every seven to eight minutes and approximately 33 pounds of ice per day with an outer body color of metallic charcoal gray.

### POU (Point of Use) Coolers Café to You bottleless water coolers.

- No Heavy Bottles

## Coffee Humor

Big shots are only little shots who keep shooting.

*(Christopher Morley)*

Freddie was eighteen years old, friendly, and eager to do things right. Unfortunately, he wasn't especially bright. He had just started his first job, as a delivery boy and general go-fer at a furniture warehouse. His first task was to go out for coffee. He walked into a nearby coffee shop carrying a large thermos. When the counterman finally noticed him, he held up the thermos. "Is this big enough to hold six cups of coffee?" he said. The counterman looked at the thermos, hesitated for a few seconds, then finally said, "Yeah. It looks like about six cups to me." "Good," Freddie said. "Give me two regular, two black, and two decaf."

At the data-entry company where I work, the other operators and I share a coffeepot. One morning I took it into the ladies room to fill it with water. Then I began preening in the mirror, brushing my hair and reapplying some makeup. I didn't realize how long I'd been until someone slid a note under the door. "You win," it read. "Any ransom demand will be met. Just release the coffeepot."
